THE EXPERIENCE

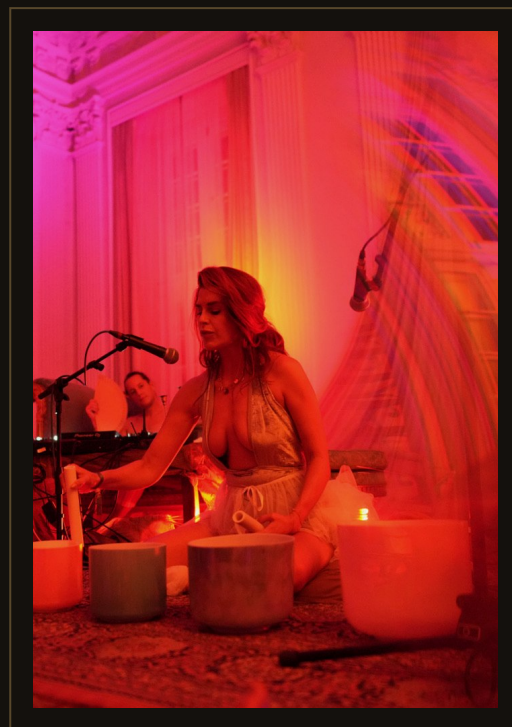

Frequency as *Medicine*

Each journey moves through sixty to ninety minutes of crystal bowl sound, guided transcendental meditation, and breathwork - a deep listening the body already knows how to do. Every bowl in the room comes from Ibiza's largest collection of crystal alchemy singing bowls, gathered and tuned over years of practice.

Tea is served. And before your guests leave the room, each session closes in stillness - with hands-on healing and a channeled message offered to every person present. For larger, amplified sets, Eve channels live and sings angelic vocals through the sound as well.

"A space held well can lift the veil."
